שִׂיחָה

Feeling Wonderful

Falleaves found his own way to feel wonderful. What does it mean to feel wonderful? You can discuss this and ask – what made Falleaves feel this way? When do we feel this way? What helps us feel this way?

לְצֵאת הַחוּצָה

See the Beauty Around Us

You can take a walk to observe outside and try to find hidden beauty. Focus on one

simple thing such as a leaf or a stone. You can play a game in which every family member describes what they chose to observe. You can choose a tree or a shrub and observe what happens to it with the change of the seasons.

יְצִירָה

Add Some Color

You can be creative with arts & crafts inspired by the illustrations in the book. First collect some leaves and then choose one. Paint the leaf with gouache using a brush, and then attach it to a white piece of paper. After the paint dries you can continue drawing by using a magic marker or a black pen.

חֵקֶר

Leaf Propagation

Some plants can be propagated from a leaf – grow a new plant by planting the end of the leaf closest to the stem in a pot with moistened soil. You can try this, for example,

with Sansevieria, Peperomia, or various succulents.

סִרְטוֹנִים

QR Code

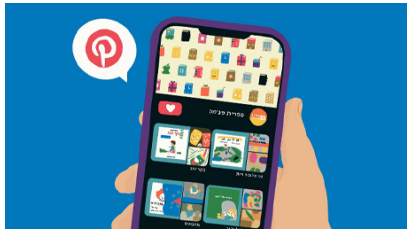

Scan the QR code and discover special arts & crafts ideas using leaves, inspired by the illustrations of Naama Golomb in the book ‘Falleaves’.
