קריאה

Family Reading Advice

Before turning the page, you can try to guess what will happen on the next page. You can pause on each page, take a closer look at the illustrations, and evoke the toddlers' curiosity. An illustration-based book contributes to the development of attention to details and the beginnings of creativity.

שיחה

Discussion – Comparing and Contrasting

You can discuss the things that are common to all members of your family as well as those that are unique to each – for example, which of you wear glasses? Which of you like to eat cucumbers? Which of you go to work in the morning and which of you go to daycare?

משחק

Not Like the Others

Arrange three similar items and one dissimilar item in a row, and invite the toddlers to tell you which one is not like the others. When they do, reverse your roles. You can gradually make things more difficult – for instance, start with three toy cars and a ball, and build up to three forks and a spoon.

קריאה

All Together Now

A mix of all the characters in this book appears on its final page. You can look at it together, emphasizing various details of this illustration, such as “Here are the cows”, or “I see a spaceship”, and inviting the children to point them out or name them.
