קְרִיאָה

A discussion on our house
All houses consist of walls, a roof, doors and windows: What's special about your house? What makes it your home? You may want to discuss special objects and items found in your home, or the things you do there together.

סִרְטוֹנִים

A video — House of boxes
סרטון בית מקופסאות

What can you do in a house made of boxes? Scan to QR code to get ideas for a house that's both real and imaginary.

יְצִירָה

Arts & crafts — Home building

How about making a house out of blankets, cardboard boxes, sticks and clothespins? And what else would you need? Decide on a location and workplan, gather the necessary items and accessories, and off you go!

מִשְׂחָק

A game of house catch

Take turns announcing a topic and having all the other players try to work together to find a suitable item. For instance, when “red” is announced, all players must search the house for a red item. In the next round, another player might call out “big”, “small”, “cute”, “old”, “multicolored”, “annoying” or “wheel”, sending the other players to look for an item matching their announced topic.
