שִׂיחָה

A discussion on old wives' tales
Stories about grandparents' own childhoods, stories about the items they had that are no longer used, or perhaps some other story? – Following this book, you may want to sit and talk to your grandma or grandpa, and hear stories about the past from them.

שְׁמַע

Listening to a story
Would you like to hear Grandpa tell this story? Please scan the QR code and listen to this book, with a few exaggerations.

מִשְׂחָק

A game of "The best"

Grandpa has the loudest laugh and the most interesting stories, and what are you “best” at? – Take turns talking about yourself, and saying what you do best. Next, take turns talking about the person sitting next to you, and what they’re the best at – but only the good things!

חֲגִיגָה

Dancing in a circle

Why is everybody dancing? Because the State of Israel was established, and it’s a great reason to dance! Do you know how old Israel is now? How many years ago was it established?

Perhaps you would also like to dance together to the music, and dedicate a dance to someone or something that has happened.
