Family Activities:

1. Noa is very attached to the old doll that her grandmother made for her, but also likes new dolls and toys. You can ask your children which dolls and toys they like in particular, and remind them who gave them the gifts and under which circumstances.

2. Mr. Minasa tried to get rid of his old shoes when he arrived in the new country. You can play an imaginary game with your children: If you were leaving for a faraway place, what would you take with you and what would you leave behind?

3. Like Grandmother Agarnesh, you too can craft a hand-made doll for your child, using old socks and clothing. You are invited to send us a photograph of the doll, which we will happily post on the Sifriyat Pijama website!

4. Mr. Minasa arrived in the new country from Ethiopia. Where did your family originate? This is an opportunity to share your personal immigrant story with your children, and show them photographs of the old country. Perhaps you too have old bjects or clothing that you can search for together.

5. Mr. Minasa's neighbors recognized his old shoes and returned them to him. Did you

ever find something and return it to its owner? Was the owner happy to receive the lost object?

6. You can act out the story with your children. Each one in turn takes on the role of Mr. Minasa and looks for places around the house to hide the shoes. The other player finds them and declares, “Oh, here are Mr. Minasa’s old shoes!”
